Merger Information

Tech is merging with Cashmere for the 2012 season.

We will all be playing as Cashmere Technical FC Inc. The main competitive teams will be in the Brazil strip, other teams will play in either current Cashmere or Technical strip while we accumulate funds to replace it all with new strip over coming seasons.

For many members of either club there will be little difference. Existing Masters and Presidents teams will stay intact and many junior teams can remain together. There will be activity around the junior Division 1 and 2 in grades to select teams, which will mean more competition for places and higher quality input to the coaching and resourcing.

We have an Interim Board to oversee the new Club, have developed a constitution and a strong structure for operating the club, we have employed a General Manager and a Football Development Officer. The senior coaching team is in place.

We are still an amateur sports club run by volunteers. A key task the GM is to coordinate the work of volunteers to ensure the playing and administration parts of the club are effective and operate smoothly.

More information will shortly be posted on our web sites and a full presentation will be made at an upcoming SGM on February 16.2012
